PRESENTS

SACRED JOURNEY TO THE ISLE OF CRYSTAL

A 14 day pilgrimage to the Celtic Dharma Mandala in Southern France

October 10 - 23, 2009

The Isle of Crystal, or Caer Sidi, is the sacred Celtic, Cathares, and Knights Templar archaeological site situated northwest of Nice, France. It was the seat of rituals and initiation for healing and divination practices, which originated from the Black Sea and the Asian Steppes, and continued into early Roman times encompassing the Holy Grail legend. Beginning in the 1970s, some Tibetan monasteries were built on Celtic powerplaces in France and U.K. By 1985, Tibetan lamas, such as H.H. Dudjom Rinpoche, H.H. Dilgo Khyentse Rinpoche, Tarab Tulku Rinpoche, had recognized that the Verdon Sacred Mandala site could be a portal to the Celtic Annwn (the land of ancestors, or the Tibetan Shambhala), if approached with the right Keys. After three decades of research and synthesis, this ancient powerplace is now being reactivated to experience the healing frequencies and consciousness of the alchemical union of the sacred feminine and masculine energy, leading to Body of Light.

Drawing on Celtic, Cathares, and Tibetan shamanic practices, as well as modern quantum psycho/energotherapy, Dr. B. Raven Lee and Dr. William R. Leon of CAIRN invite participants on a magical, experiential, healing tour. The heart of the program is the connection to the feminine principle of the Black Madonna and Mary Magdalene, as well as to the Grail Lore Spiritual Warrior Paths. It includes Celtic teachings, shamanic exercises, divination (Chod), meditation, breathwork (pranayama), and Tibetan energy and chakra practices (Tsa~rLung) allowing each participant to enter the mandala and learn ways to transmute negative patterns, and connect to the Field of Universal Energy and Divine Love.

Cost is 2900 - 3400 Euro (depending on accommodation), all-inclusive, except for airfare to Nice, France. For more information, please contact Dr. B. Raven Lee at 626-396-1871, or visit:

www.integrativewisdompath.com or www.caer-sidi.com

Dr. B. Raven Lee is a transpersonal-Jungian psychotherapist, meditation teacher, and diplomat in clinical hypnotherapy. She has been integrating Bön-Buddhist practices, dreamwork and shamanic healing with western psychology, quantum energy, and interpersonal neurobiology in her private practice in Pasadena, CA. A Reiki Master and teacher, Dr. Lee has studied with shamans from Mexico, and teachers from the Source, including Celtic and Tibetan lineages.

Dr. William R. Leon has been immersed in the synthesis of Celtic, Cathares and Tibetan healing and Divination practices since 1970. A musician, health anthropologist, psychologist and geopolitics scholar, Dr. Leon initiated the first Tibetan Transpersonal Psychology academic seminars in Belgium and France with the late Tarab Tulku. He is the founder of CAIRN, Consortium (EU-NGO) Professional Doctorate School, which promotes research and healing program in Nepal.

"This pilgrimage was both profound and extremely fun. Amid fantastic scenery we visited very simple places that touched the depths of my being and connected me to my past – my ancestors, my spirituality, my very soul in ways that led me into a future bright with promise. The call to become body of light in ordinary everyday life is powerfully supported through this experience." (F. W., Pasadena, CA, USA, past participant)
