"We need to fix our souls. We have lost our way.

It begins with leadership... with inspiration."

Michelle Obama

Patriarchy with its focus on the masculine principle has dominated the worldview for millennia, and has led to the economic and ecological crises facing us now. Vital to restoring balance in the world, the Sacred Feminine principle celebrates harmony, collaboration, and interconnectedness. Drawing on the author's mystical encounter with Mary Magdalene and her pilgrimages to Southern France, *Embodying Sacred Feminine and Magdalene Wisdom* addresses the importance of feminine consciousness as a portal to direct knowing, a connection to the divine. The Gospel Teachings of Mary, which parallel Tibetan Buddhist philosophy, speak about stillness, silence, and breath as methods for experiencing unity and gaining wisdom and understanding.

Dr. Lee's article on the sacred feminine makes up one of forty inspiring chapters in *Goddess Shift: Women Leading For A Change*, an anthology of powerful women's voices. These include Maya Angelou, Jane Fonda, Sonia Gandhi, Angelina Jolie, Aung San Suu Kyi, Shirley MacLaine, Madonna, Michelle Obama, Suze Orman, Elaine Pagels, J.K. Rowling, and Oprah Winfrey. *Goddess Shift* describes the shape of the new human family that is emerging from the leadership of these remarkable women, and the very different future they envision for the world we share. All royalties from this book go to nonprofit organizations dedicated to improving the lives of young women around the world. For more information, please visit www.goddessshift.com.
